

Circle Unlimited

Curriculum Vitae Stefan Heins

Stefan Heins studied Business Informatics at the University of Applied Sciences Wedel. He already worked for Circle Unlimited AG during his studies and as part of his diploma thesis.

After successfully concluding his program of studies Stefan Heins began his career as a professional in software development at Circle Unlimited in 2004. Shortly after joining the company he was increasingly involved in consulting projects and became head of consulting in 2007.

As project manager he reliably supported national and international clients in implementing SAP-integrated document, contract and license management solutions with interdisciplinary experience.

Stefan Heins was granted procuration in 2010 and became a management board member of Circle Unlimited in August 2017. In his role he is primarily responsible for consulting, product development and customer care.
